Subject: End of the 9/11 Memorial Project in Hayward, CA

Hayward City Clerk please forward this to the Hayward City Council & others who might want to know about it:

Dear City Council and Staff of Hayward,

This email is to inform you that we were not able to make a compromise on the "Hayward 9/11 Memorial" that I was going to design and build for the city and citizens of Hayward as a donation and gift.

The last and final MOU that the City of Hayward sent to me at the end of next week is not acceptable, and with my last conversation with City Attorney Mr. Lawson today, in which he said that the items I need modified on the MOU would not be changed we are at a final impasse.

So I and my Team will not be attending the Hayward City agenda meeting scheduled tomorrow as we consider this wonderful project dead. We would like to get a letter from the City of Hayward confirming this, but if you do not we will still consider this process done.

But, as I told Mr. Lawson today, the "door is closed but not locked yet" until we move the 9/11 Memorial project to another local city. The only way it can be revived is if the Hayward City and Staff accepts the last MOU version that we sent Mr. Lawson last week. If not, then like the Flight 93 Memorial now in Union City, CA this project is not meant to be in Hayward, CA.

Thank you for your consideration...

Best Wishes to you all,

Michael L. Emerson
